SKILLS

Frontend:

Next.js, React.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI (MUI), shadcn/ui

Animation & 3D:

GSAP, Three.js, Scroll-Based Animation, WebGL Interactions

Backend:

Node.js, Express.js, Next.js API Routes, Firebase Cloud Functions

Database:

MongoDB, Firebase Firestore, MySQL

APIs & Payments:

REST API Development, GraphQL, API Integration, Stripe, Razorpay, Square SDK

State Management:

Redux, Zustand

CMS:

Payload CMS

Tools & Infrastructure:

Git, GitHub, Vercel

E-commerce & Website Builders:

Shopify, Wix Studio

AI & Emerging Tech:

AI Integration, Multi-AI Aggregation, AI-Powered Feature Development

Core Competencies:

Performance Optimization, Core Web Vitals, Responsive Design, SEO, GSAP & Three.js Animation Specialist, Cross-Functional Collaboration

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building 15+ production-ready web and mobile apps using React.js, Next.js, React Native, and TypeScript. Skilled in AI integration, GSAP/Three.js animation, REST API and GraphQL integration, and Node.js/MongoDB backend development. Proven track record of optimizing Core Web Vitals and delivering responsive, pixel-perfect UI from architecture to deployment.

EXPERIENCE

Junior Developer • Luminior – Brand Growth Partner Jun 2026 – Present
Mumbai, India

- Engineered highly interactive and animated web applications from scratch using Next.js, GSAP, and Three.js
- Executed advanced animations while maintaining high performance and smooth user experience across devices
- Optimized Core Web Vitals (LCP, CLS, overall performance score) for animation-heavy websites
- Built responsive, scalable UI architectures with a performance-first approach
- Built and deployed full product websites with complex motion design and modern UI/UX
- Initiated and managed e-commerce websites using Shopify and Wix Studio; customized themes, layouts, and integrations to improve user engagement and conversion
- Designed and built a centralized analytics dashboard integrating multiple third-party APIs, including Meta API (social media insights and growth tracking), Canva API, and marketplace APIs for Flipkart, Myntra, and Meesho (order tracking and sales analytics)
- Built a unified monitoring system consolidating order, revenue, and social-media performance data from 5+ platforms (Flipkart, Myntra, Meesho, Meta) into a single dashboard, cutting manual reporting time by approximately 40%
- Handled end-to-end API integration, data aggregation, and real-time data visualization
- Ensured clean code structure, scalability, and maintainability across projects

MERN Stack Developer • Unified Mentor Pvt. Ltd Apr 2026 – Jul 2026

- Contributed to the development and deployment of 5+ full-stack MERN applications (MongoDB, Express.js, React.js, Node.js)
- Applied system design and deployment best practices on real-world projects, strengthening scalability and maintainability
- Enhanced application performance by roughly 20-25% through targeted optimization work

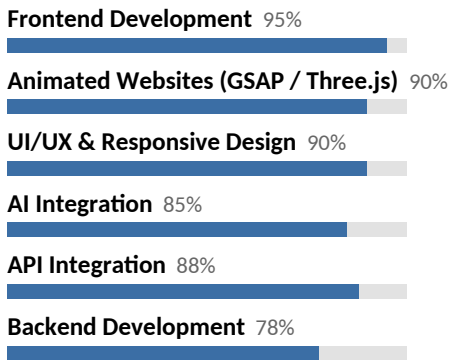

Frontend Executive • Underscore Technology Pvt. Ltd May 2025 – Oct 2025

- Built scalable web applications using React.js, Next.js, and TypeScript
- Built REST APIs using Node.js and MongoDB
- Boosted application performance, reducing page load time by 35%
- Designed responsive, accessible UI using Tailwind CSS and Material UI (MUI)

Junior Software Developer • Rythz Lab Jul 2023 – Apr 2025

- Established and maintained full-stack features using React.js and Firebase
- Refined form validation logic, reducing user input errors by nearly 30%
- Collaborated with cross-functional teams to deliver client requirements on schedule

PROFICIENCY

SOFT SKILLS

- Teamwork
- Cross-Functional Collaboration
- Problem Solving
- Time Management
- Communication
- Adaptability
- Attention to Detail

PROJECTS (15+ DELIVERED ACROSS WEB & MOBILE)

Wallview – Media Streaming Platform *Next.js, Redux, TypeScript, Node.js, REST APIs*

<https://wallview.net/>

Cross-device media streaming platform enabling users to stream and access content seamlessly across devices. Built authentication, Square SDK integration, device pairing, subscriptions, and real-time playlist sync.

Luminior – Business Website

Wix Studio

<https://www.luminior.in/>

Fully animated, SEO-optimized business website built on Wix Studio. Applied complete on-page SEO, alt-text optimization for all images, and performance-tuned animations for a smooth, engaging experience across devices.

Real Estate Management System *React.js, Material UI (MUI), React Router DOM, Context API*

<https://realestate-omega-ashen.vercel.app/>

Full-stack real estate platform with role-based access for buyers, sellers, and administrators. Built advanced property search and filtering, wishlist, interactive map view, an inquiry and appointment-scheduling system, and dedicated dashboards including an admin panel for property approval and analytics.

TravelBharat – Explore India State by State

React.js, React Router DOM

<https://travelbharat-g8sj.vercel.app/>

Full-featured tourism web app covering 8 Indian states and 40+ destinations across 6 categories. Built multi-page navigation, search, and category-based filtering with responsive, mobile-first design and parallax hero sections.

Cocktail Art – Creative Content & Media Production Studio (Under Development) *Next.js, Three.js, GSAP*

<https://cocktail-art-test-iev4ofyvi-ipshita-setts-projects.vercel.app/>

Website for a creative content and media production studio, currently in development. Building an animation-focused, interactive multi-image showcase using Next.js, Three.js, and GSAP, with immersive scroll-based and 3D visual effects.

SolarNets V3

Next.js, Redux, TypeScript, Node.js, REST APIs

<https://solarnets.com/>

Solar protection platform with customizable solutions. Engineered a net configurator and a multi-step, dynamic pricing engine using Redux for state management.

IntelliPro

Next.js, MongoDB, Payload CMS, Tailwind CSS

Multi-AI aggregator platform integrating multiple AI services. Crafted a pixel-perfect UI from Figma using Tailwind CSS, and integrated SEO and Open Graph (OGP) metadata for improved discoverability.

Freshcrate – Grocery E-Commerce (Web & Mobile) *React.js, React Native, Firebase Firestore*

<https://www.freshcrate.com/>

Grocery e-commerce platform offering a wide range of everyday grocery essentials, available on both web and mobile. Built the web platform using React.js and the mobile app using React Native, sharing business logic across platforms, with Firebase Firestore as the real-time backend database for data storage and synchronization.
