IPSHITA SETT

Frontend Developer

5B, Iswar Chakraborty Lane, Kolkata – 700006 | Email: settipshita28@gmail.com | Phone: +91-8961194757

To work for an organization which provides me the opportunity to improve my skills and knowledge to grow along with the organization objective

---

Profile Summary

- Frontend Developer with 3.5+ years of experience building scalable and responsive web applications using Next.js, React.js, and TypeScript.
- Skilled in UI development, performance optimization, and REST API integration using tools like Zustand, React Hook Form, and Firebase.
- Experienced in developing SaaS, EdTech, Media Streaming, and E-commerce platforms with SEO-friendly, maintainable, and high-performance code.
- Strong collaborator with backend and design teams, delivering pixel-perfect, production-ready interfaces.

Technical Skills

- Languages: JavaScript, TypeScript
- Frontend: Next.js, ReactJS, React Native, HTML, CSS, Tailwind CSS, Material UI
- Backend: Node.js, Payload CMS, MongoDB, Firebase, Realtime Database
- APIs: REST APIs (integration & development)
- State Management: Redux, Zustand
- Tools: Git

Work Experience (3 Years 5 Months)

Frontend Executive — Underscore Technology Private Limited (May 2025 – Present)

- Develop and maintain scalable, high-performance web applications using React.js, Next.js, and TypeScript.
- Collaborate with backend developers and UI/UX designers to deliver responsive, pixel-perfect interfaces.
- Integrate REST APIs for smooth frontend–backend communication and dynamic data handling.
- Configure and customize Payload CMS (MongoDB) for efficient content management and admin workflows.
- Optimize page performance and SEO readiness, ensuring faster load times and better Core Web Vitals.
- Build reusable components and manage complex state logic for enterprise-level applications.
- Participate in code reviews and feature planning, ensuring clean, maintainable, and efficient code delivery.

Junior Software Developer - Rythz Lab, Kolkata (July 2023 – April 2025)

- Led frontend and backend development for e-commerce and learning platforms using React.js & Firebase.
- Handled UI/UX design, backend logic, and full-cycle project delivery in coordination with clients.
- Implemented real-time updates, form validations, and state synchronization across applications.

To work for an organization which provides me the opportunity to improve my skills and knowledge to grow along with the organization objective

---

Software Developer Trainee - Rythz Lab, Kolkata (Apr 2023 - Jun 2023)

- Contributed to live React-based projects by fixing bugs, refining UI, and enhancing application logic.
- Assisted in improving performance and responsiveness across multiple production modules.

Project-Based Training - Rythz Lab, Kolkata (Jun 2022 - Mar 2023)

- Completed a 9-month hands-on project training in React.js, Firebase, and full-stack web development.
- Built dynamic web modules, authentication flows, and database integration during the training period.

Key Projects

Wallview – Media Streaming Platform (dev.v2.wallview.net) (Next.js, Node.js, Redux Toolkit, Tailwind CSS, Square SDK)

- Built from scratch a cross-device media streaming app with secure authentication and subscriptions
- Integrated Square SDK for payment processing and subscription management
- Implemented cookie-based login, device pairing, and real-time playlist sync
- Developed responsive, Figma-to-code UI for mobile, web, and TV

SolarNets V3 – Solar Panel Protection Platform (dev.solarnets.com) (Next.js, React, Redux Toolkit, Tailwind CSS, Material-UI, REST APIs)

- Built a production-grade platform enabling users to custom-design solar protection nets with real-time calculation and pricing logic
- Developed complete Net Configurator, Add-ons Module, and multi-step Order Workflow from Figma mockups to deployment
- Implemented advanced calculation engine for material, tensioner chains, and dynamic pricing with Redux state management
- Collaborated in a 3–4 developer team to deliver dual admin-user platforms ensuring seamless UX and accurate business logic

IntelliPro – Multi-AI Model Aggregator Platform (intellipro.sudors.in) (Next.js, TypeScript, Payload CMS, Tailwind CSS, SEO & OGP)

- Built a unified AI platform integrating multiple state-of-the-art models (GPT-4, Claude, Gemini) into a pixel-perfect interface
- Converted detailed Figma mockups into responsive, reusable React components with 99%+ design fidelity
- Integrated Payload CMS for dynamic, admin-friendly content management and real-time updates
- Implemented comprehensive SEO and social meta strategy (OGP, Twitter Cards) for better search visibility and shareability
- Collaborated in a 2-person team to deliver a production-ready, CMS-driven AI platform from scratch

E-Commerce Website (freshkrate.com) (Next.js + Firebase + Zustand)

(Next.js + Firebase + Zustand)

- Built a scalable e-commerce site with cart, product variations, and admin features
- Used Zustand for global state & Firebase Realtime DB for storage

To work for an organization which provides me the opportunity to improve my skills and knowledge to grow along with the organization objective

---

Android E-Commerce Apps (React Native + Firebase + Zustand)

- Developed shopping apps with product filters, cart, order placement, and admin sync

Fresh Krate - Web + Admin Panel (ReactJs + Firebase + Realtime database)

- Created both user-facing website and admin dashboard to manage 250+ products
- Handled planning, testing, deployment, and client communications independently

ELTU PAL - Learning Platform (Next.js)

- Designed a multilingual educational platform using Context API, Firebase, and Material UI

Education

- B.Tech in Food Technology - Techno India, Salt Lake (2015-2019) | DGPA: 7.01
- Class 12th (WBCHSE), 2015 - 67.2%
- Class 10th (WBBSE), 2013 - 77.42%
